The Impact of the war on Arab society

A war in the North will affect many Arab municipalities whose preparedness for emergency is lacking

Significant infrastructure gaps (primarily shelters in private and public spaces) and lack of resources in local authorities

Lack of awareness among the public and professional regarding emergency preparedness and response.

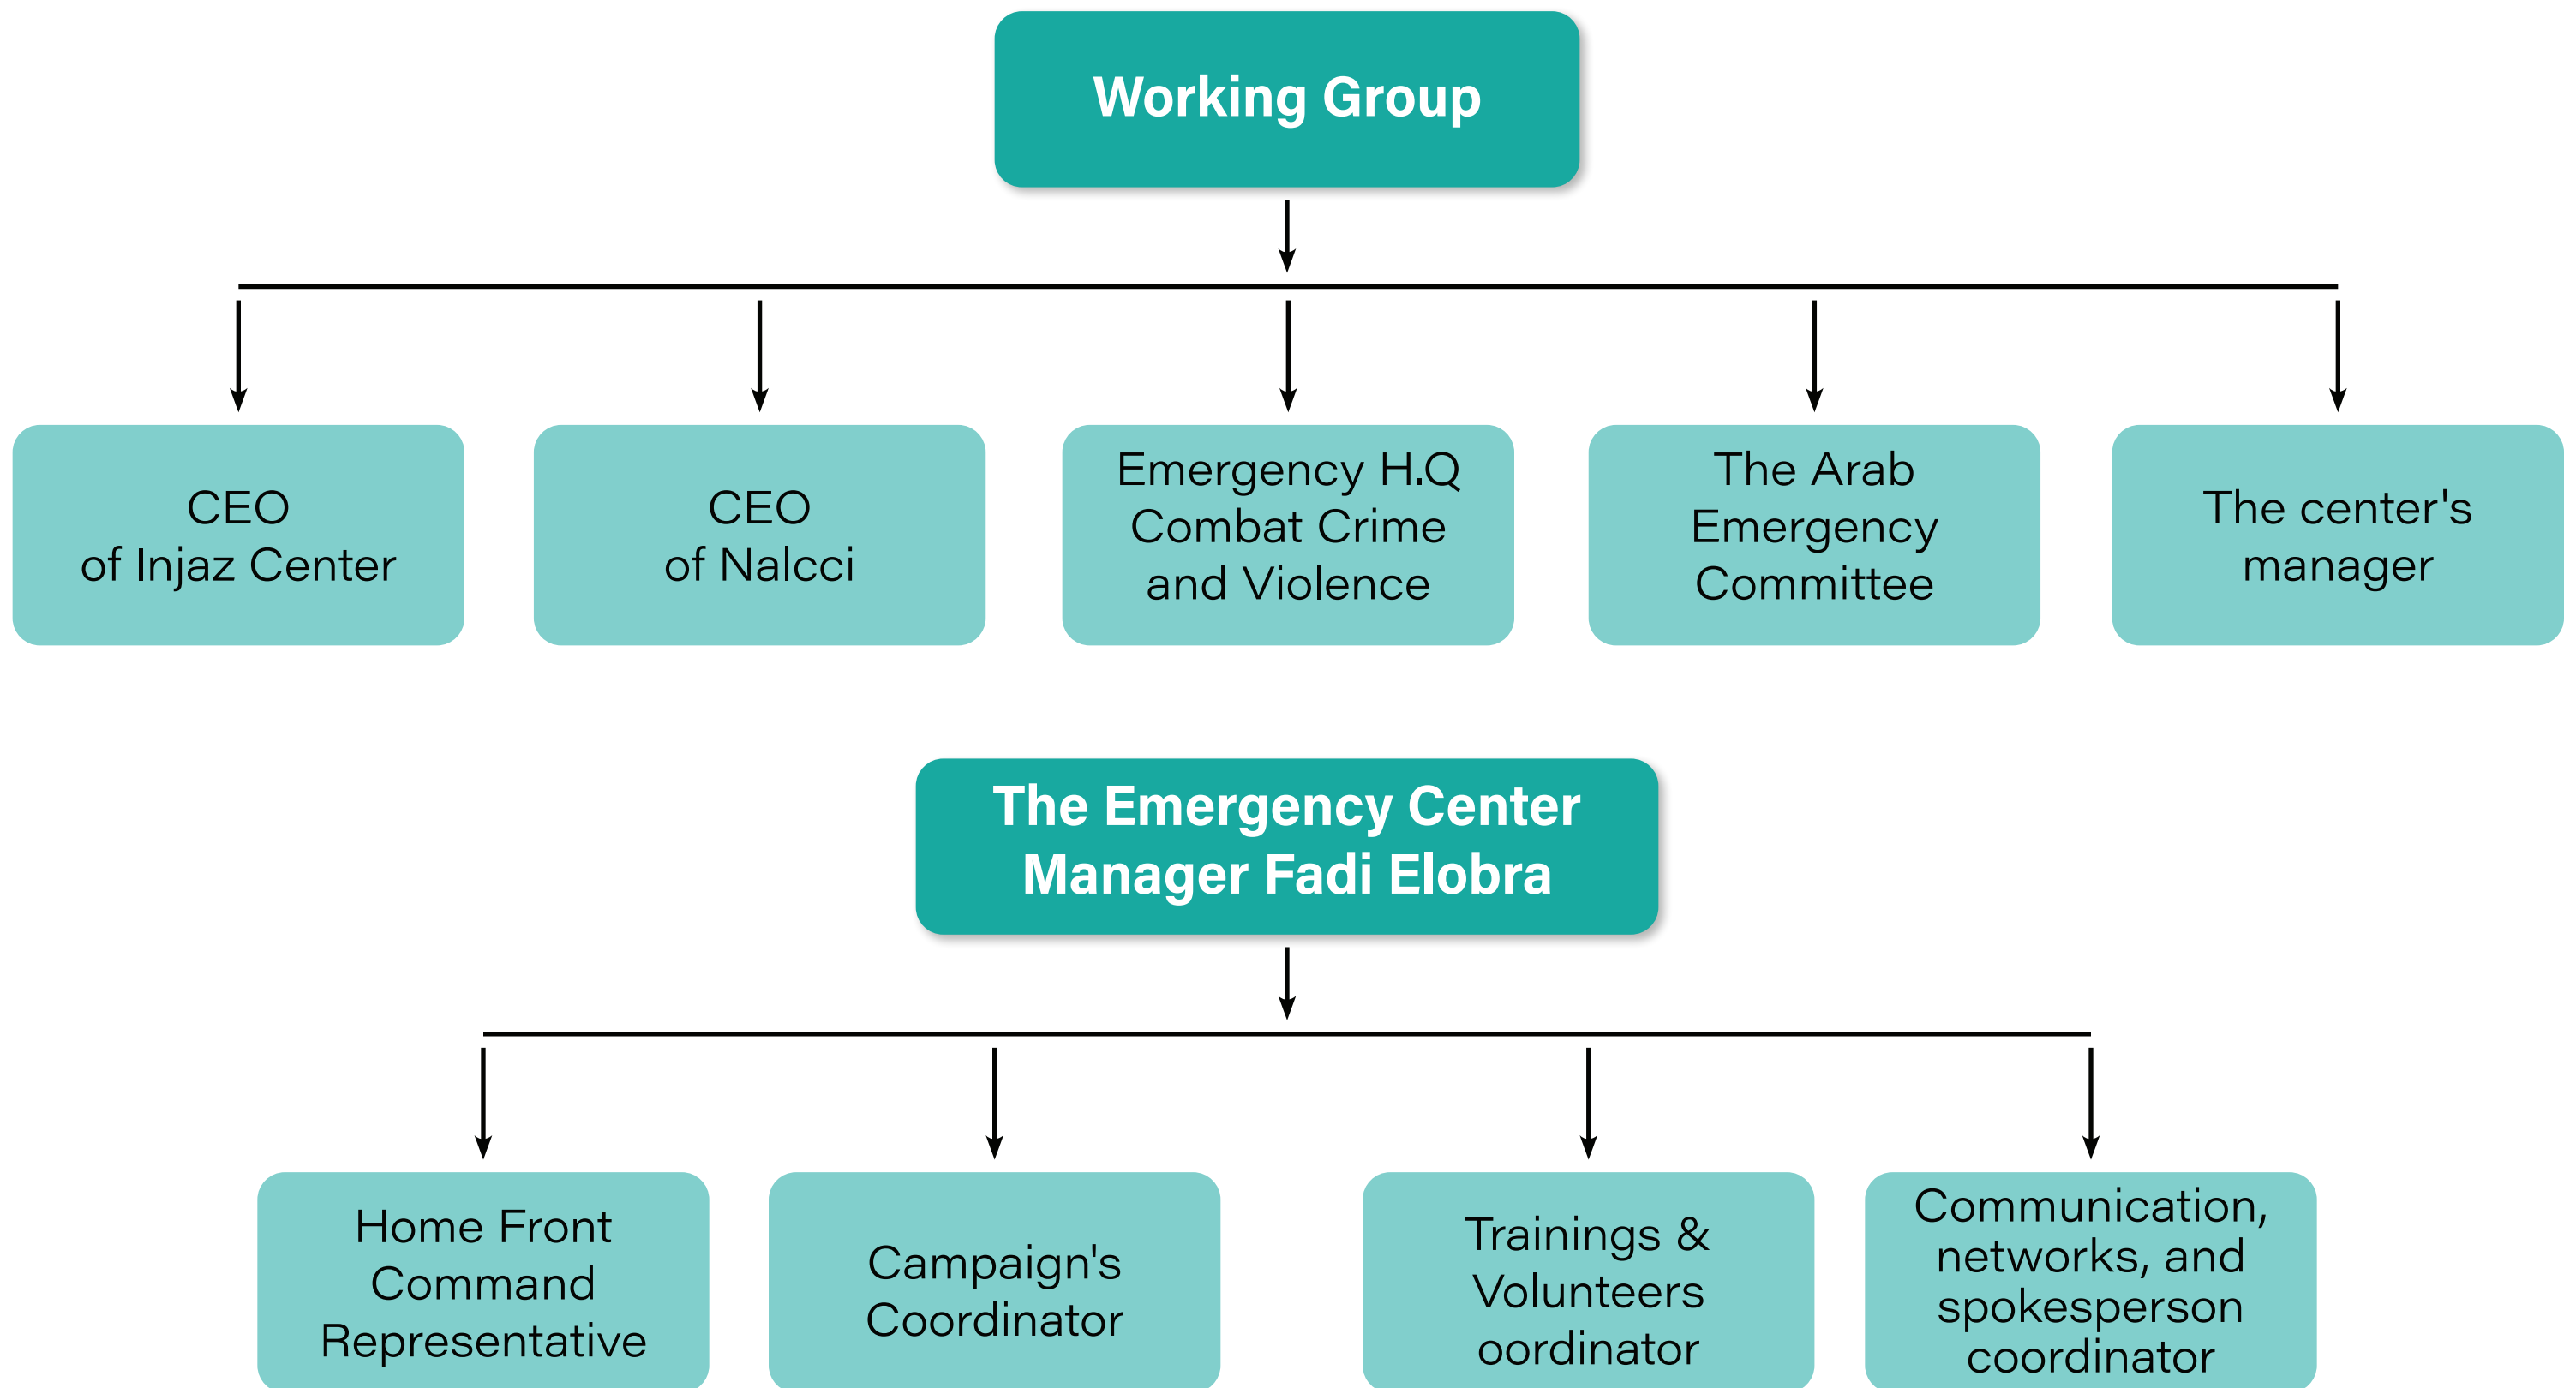

Rapid governmental actions are not always adapted to the reality and needs of the Arab society

Highly expanding of unemployment rate in the Arab community - Arab cities lead with registered job seekers numbers

Organizational structure

Status report

**The impact of the
war on Arab society**

**The center's
objectives**

The center's tasks

1 **Assisting civil protection**

2 **Strengthening self & social
resilience**

Status report

The impact of the war on Arab society

The center's objectives

The center's tasks

- ➔ Providing essential information from the Home Front Command and state authorities to the Arab Society
- ➔ Developing and disseminating emergency-related information and content in Arabic
- ➔ Identifying local authorities' needs
- ➔ Identifying needs, actions and services provided by civil society organizations and philanthropy
- ➔ Organizing trainings for local authorities and local organizations
- ➔ Strengthening connection to government ministries actions and activities, in addition to employers' organizations
- ➔ Addressing preparedness for the "morning after"

Immediate tasks

1 Mapping and assessing needs in local authorities

4 Collaboration with government ministries

2 Organizing trainings in local authorities and organizations
(eg. first aid, civil defense, working with volunteers)

5 infrastructure-building

3 Awareness raising campaign
(eg. Choosing the most protected space)

6 Expand more local and Regional Employment Initiatives

THANK YOU
